LF

“ I am thankful for having known you for these past 73 years. I am thankful for having been able to share the fun things we did growing up as neighbors and through 12 years of schooling (even though there were times you got me in trouble). I will remember the times on the bus when you would say “you want to see what I brought for class today”? (Like the frog you turned loose in third grade classroom)! My response was always “no, cause it’s gonna get you in trouble”, but I always looked anyway and you got in trouble! A few of us, (your Whiton classmates) have stories about your red car that have already been shared since you left us.

May you be as blessed in the next life as I was in this one by knowing you.

Your lifelong friendship was a blessing and I am going to miss our phone conversations that always began with “Hey Girl”. I know from our conversations these past few years that you are in a better place and no longer in pain.

RIP my good friend.
