“ From the first moment I met you, you welcomed me with open arms and always made me feel loved. Although you were my husband's grandmother I adopted you as mine as well. I will always remember the times spent watching TV together and all the good treats you would bake. I loved you so much for your care of Matthew when I needed you most. I will miss you enormously. I love you Granny. Till we see each other again....

Your granddaughter,  
Kim
