“ My father was a special man. He drove a big truck for 42 or so years so weekends was when we got to see our father. I must admit i was not as close to my father as i wanted but i loved him as tho i was. The one memory that i will always remember is when dad took my brother and i fishing at the feed mills in guntersville and he landed a drum that then looked like a whale. We went in his VW and i sat in the back holding my dads fish that he was so proud of that he did not care that i was getting fish smell on everthing in the back of my dads VW. Dad even after all we have been thru i will always miss my weekends watching you pull up in your big rig. No matter what Dad i will truely miss you. Tell Mom i miss her.
