“ I worked with Tamy at Kappler, I am new to the company but I got to meet her on Sept 12, 2011 and work with Tamy for a short time before she went out of the plant. Tamy will be truly missed and she always had a smile on her face and something nice to say even though I knew what she was really feeling on the inside. Thanks for the times that you helped me and just listen to me and made a joke out of everything I did wrong. Kappler truly was blessed to have you as well as the many people's lives that you touched. God speed Tamy.

BA

“ I worked with Tamy at Kappler. At one time she was my supervisor. Tamy had a way about her that just made you smile. She always seemed to be in a good mood. Tamy will truly be missed at work because she was excellent at her job. I've had quite a few supervisors in my time at factory jobs, and most of the time you hear a lot of negative stuff about them. In all the time I've been around Tamy, I never heard a negative word about her as a supervisor. She truly will be missed
